# MADE FOR PISTE

Dexterity and protection  
to top performances  
on the ski slopes.

# MAN

# WOMAN

# PROTECTION TO DARE

Integrated safety and superior control  
to top performances. In all conditions.

# NUCLEO MIPS PRO

THE PROTECTION THAT SURROUNDS THE SKIER. A LIGHT AND COMPACT HELMET, DESIGNED FOR THE SAFETY OF YOUR BEST PERFORMANCES.

## AIRINTAKES

Ventilation and aerodynamic performance. Air is channeled inside the helmet and above the head, removing moisture and excess heat.

## REVERSESAFE

An innovative construction that combines extreme, safety and lightness.

## ARMORING

A one piece ABS structure that protects where impacts are more likely to happen.

# ELEMENTO MIPS

LIGHTNESS, COMFORT AND PROTECTION IN ALL CONDITIONS. SAFETY DESIGNED AROUND THE SKIER.

## AIRINTAKES

Channeled ventilation removes moisture and excess heat from the head.

## SAFETY DESIGN

The protection is designed to surround the skier's head.

## AUXETICS EARPADS

Softness and comfort, inspired by natural geometries.

MEASUREMENTS

As it is not currently possible to industrially produce tailored back protectors, back protector must be worn by people with anthropometric characteristics lying within a certain range. A back protector is suitable for a person if its height does not exceed the seventh cervical vertebra and if the minimum area of the model is related to a waist shoulder height greater than or equal to that of the person.

CHOOSE THE SIZE OF A PROTECTOR CORRECTLY

The choice of the correct size of a back protector, according to the standard, is determined by the Waist-Shoulder height. This is the difference in height between the midpoint of the shoulder and the waistline (immediately above the hipbone). According to the Dainese standard, this measurement must then be qualified by the correct dimension of waist strap, identified by a size (ex: XS, S, M...). It is not correct to define the measure of the back protector on the basis of the height of the person, because even if the back could have the same dimension, the legs could have a different length.
